Avian Influenza

- The action plan of Avian Influenza must be written according to the differences in all countries.
- More drill is need to improve efficient response.

Tuberculosis

- San Francisco TB Control Section, Department of Health has provided valuable information. (Masae Kawamura USA)
- A new strategy "Patient-Notify Procedure", has been proposed in the patient care system, the procedure including informing patients that, according to "Communicable Disease Control Act"; they must accept the treatment and the inspection.

HIV \ AIDS 1

- 24 hours of Methadone service is provided in 30 doctor offices, which is evenly distributed in Hong Kong. (Kin Leung Cheung, Hong Kong)

HIV \ AIDS 2

- Providing emotional and psychological support through case management.
- Teaching cases to face life and plan future after being diagnosed HIV \ AIDS, which may be effective for managing cases in terms of reducing lose rate and prevent healthy people to be infected.

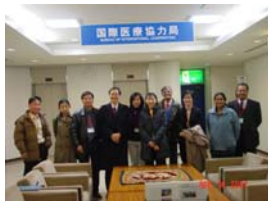

Panel Discussion 1

- To sort **TB** patients among **AIDS** patients by applying blood tests.
- Continually holding relevant education program and research in finding better solutions for **AIDS** and **TB** in 2007.

Panel Discussion 2

- Establish a **website** for ANMC21 member cities to share information for health-related emergency control for infectious diseases.
- Annual **education** program is suggested by Japan in order to share valuable information.

Panel Discussion 3

- Having conference secretarial post designed **logos** from all ANMC21 member cities to vote their favorite.
- 2007 ANMC21 Conference on Countermeasures to Combat Infectious Disease is holding in **Hanoi, Vietnam** ◦
